OF SUPERIOR COURT.

REV. J. H. SELDEN

Joseph T. Cruttenden of New Lonton, formerly of this city, was re-elected president of the Eastern Con-ecticut Development committee at the annual meeting held in the Wauregan couse on Friday. Over one hundred nen, representative of the business in-erests of eastern Connecticut statherrests of eastern Connecticut, gather al in the big dining room at the Wau-egan house for a noonday luncheon. Preceding the luncheon, there was an informal reception for the speakers and members of the committee. The menu, which was served 12.30 o'clock, follows:

Clam Chowder, Manhattan.
Filot Bread.
Baked Stuffed Shad, Italienne.
olden Wax Beans. Mashed Potatoes
French Bread.

The invocation was pronounced by Rev. Joseph H. Selden. During the luncheon Geer's orchestra d a concert programme. Mrs Grace Aldrich-Crowell was heard in two very excellently rendered vocal selections. Her numbers were the selections. Her numbers were the Spring Waltz Song by Stern and An Opera Secret, Woodman. She was ac-companied by Miss Ella Potter.

Vice President Williams Toastmaster In the absence of President Cruttenlen, who was unable to attend owing to the serious illness of his brother, Vice President L. O. Williams acted as oastmaster.

A most cordial welcome to the city f Norwich was extended the visitors by His Honor Mayor Timothy C. Mur-phy, and President William A. Somers extended the welcome of the Norwich

Somers said: The Norwich Chamber of Commerce that so many representative busines men will come together for a midday meeting, on so short a notice, shows the co-operative power we have in Norwich. This development commit-tee is a wing of the Eastern Connecti-cut Chamber of Commerce, made up of eight members from each chamber, formed to write our her death. She was a woman of strong character and positive in convictions, and had very many warm friends who will miss her sympathy. She leaves three eisters, Mrs. R. R. Church, Mrs. J. D. Eccleston and Mrs. E. M. Swift, all of Jewett City, and three children. Benjamin H. Palmer, Shepherd B. Palmer of Norwich, and Mrs. W. E. Truesdell of Brooklyn N. Swift and obtain the convention of t

vasion. If war should come the best defense we could offer would prove unavailing. The spectre of an over-

FAMOUS PRISONER

DIES FREE MAN John Warran, Native of Coventry Served Forty-three Years in Prison

After four years of liberty following more than a half century in the state prison at Wethersfield, to which he was sentenced for the murder of his wife, John Warren died Wednesday afternoon at the home in Mansfield of Joel Warren, his brother. Death was due to hardening of the arteries. He was 77 years old, and had lived in Mansfield since a short time after he was pardoned, June 15, 1912. The funeral was held from his home at 1 o'clock Friday afternoon and burial will be in Storrs cemetery, Mansfield. Warren was on Dec. 14, 1869, convicted of second degree murder and sentence dto life imprisonment. This was but five days after his twenty-first birthday. He outlived seven wardens and served under nine, including Ward A. Garner, the present wurden. Near the end of his term, he frequently sent petitions to the board of pardons, asking to be pardoned on account of his declining years, but it was not until three years and 11 months ago that the old man's desire was granted. Stoop-shouldered and gray-halred, it was nevertheless a After four years of liberty following

The next speaker introduced was E. T. Litchfield, superintendent of the New London Division of the New York, New Haven and Hartford Rall-road company. The company which I represent has very large interests in New England and in Connecticut, particularly, said Supt. Litchfield. They have very large interests in this healthave very large interests in this beau-tiful city of Norwich and the interests of that country are what brought me to Norwich today. He spoke of New London as a beautiful and prosperous city and said that at a meeting of the New London Chamber of Commerce he expressed the desire to become one of the business men of the city. I do not care to feel that I represent an industry that is out of touch with other industries of the community. months ago that the old man's desire was granted. Stoop-shouldered and gray-haired, it was nevertheless a happy man and took leave of the grim prison walls Wednesday. June 19, 1912, expecting to spend at least a dozen years in the country with his brother—a free man once again. Although his sentence had been abruptive terminated on the Saturday previously, he remained at the prison, which had been his home for 53 years, a few days longer, until the following Wednesday so that, as he said, he could "teach the next man how to do his work," and could have time to "pick up and get ready." He was then 74 years old.

At the time of his liberation, the hair of the old convict was more white than black but but As an industry, at the present time we are placing on the market goods of inferior quality than we have been placing on the market in years past, and it is due in large part to A few years ago the railroads were told by the government that they must

At the time of his liberation, the hair of the old convict was more white than black, but his mustache was more black than white. He was erect, plump; his face was bronzed with outdoor life and carried but few wrinkles. His eyes were bright. He was well informed as to current events and had even had the distinction of riding in an automobile, having taken a ride some time previously with Warden Garner, who had taken a liking to the old man because of his zenwere disposed of at a short calendar session of the superior court in this city on Friday by Judge Joel H.

before this time, much against his will and to avoid arrest. He ascer-tained later that he had been detained later that he had been de-ceived and that he was in love with another woman. It is thought that these two factors led to his orime which was the murder of his young wife. June, 1859, was a drouthy month and a stream not far from Warren's home in Willington had be-come dry, though pools of water stood here and there in the bed. One Sunday afternoon as Warren and his wife were strolling along the bank of the river he suggested that they wade vs. Potter, disclosure of defense; Fenton et al. vs. Fenton Building company, application of the Willimantic Lumber company for the payment of interest upon its claim; Mystic Valley Water company vs. Townsend, judgthe river re suggested that they wad in one of the pools of water. non-suit for failure to plead; Porter A motion that answer and counter-claim be filed was granted in the case of Wells vs Wells.

A second order of notice was granted

He went after his wife and threw her fuce downward, into one of the peols, holding her there until she drowned. He hid her body in a swamp not far away and told persons in the neighborhood that she had gone away on a visit. However, per-sons in the neighborhood became suspicious and a search was instituted which ended with the disappearance of Warren and the finding of the body, both at about the same time. He was found in Belchertown Mass, arrested, taken to fall and held for trial the following December. A ready for the trial to begin when the state's attorney accepted a plea wood was granted.

In the case of Periatti vs. Perlatti a to the surprise of everybody. Warren was sentenced to life imprisonment

Three weeks in which to file rea WEDDING. sons of appeal were ordered in the case of Collins vs. Patch, appeal from Gold-Wilder. May, daughter of Mr. and Mrs. John L. Wilder, was married Wednesday at The case of Luce vs. Cobb, that a default be entered unless a defense is disclosed, was continued two weeks

SERV-US MINCE MEAT

Package condensed mince meat is made up today of the best quality of dried fruit and other items which can be found, all of which are found in the United States with the exception of spices and currants. The study of packing condensed mince meat has ex-tended over a period of 100 years and today is as near its perfection as we can possibly conceive. The samitation in the factories in which it is packed is beyond repreach as the competition today in these lines necessitates the guarding of the most minute detail of guarding of the most minute detail of the business. The apples used are of the best grade of New York State, where in our opinion is grown the best flavored apple known. The raisins used are of the best quality seeded variety. No expense is con-sidered in procurring the very highest grade of spices, and sugar, as we all know, is always sugar, the different grades merely representing the differ-ent flavors or different granulation re-quired for different purposes. Every quired for different purposes. Every particle of fruit or any other article used in the manufacture of mince meat is thoroughly cleaned and hand-picked is thoroughly cleaned and hand-picked by people trained to know what should and should not be used and in this manner the article comes to the housewife cleaner by far than she could possibly take the same articles in her own kitchen, regardless of how clean it may be, and make up the filler for her mince pie. The old idea of dirt being prevalent in quantity is today disputed by the greatest authorities on food products. The meat used in mince meat is of the choicest and today the same corn-beer which you and I would use on our table is what is being used in Serv-us Mince Meat. There are very few ples made which can be used as handily by the housewife as mince meat for all it requires is a little water and being heated for ten minutes and it is ready for the

ten minutes and it is ready for the crust and then the table and she may without fear of loss carry three or without fear of loss carry three or four packages of mince meat in her pantry, having it ready at any time for the chance occurrence of unexpected company and it will be a good dessert free from dirt. It is our thorough belief that a mince meat pie made from condensed mince meat is about as cheap a dessert as can be prepared and yet as good.

For many years mince meat was considered a winter dish. Each year for the last ten our factory has had to increase its capacity during the summer months until today it runs every day of the year with a regular force of helpers. We ship goods to every part of the country the entire year. This of course means a great increase in the use of these goods over when mince meat was eaten only in the winter months which means an increased sale over the former winter

reased sale over the former
